EDUCATION

VELLORE INSTITUTE OF TECHNOLOGY, Vellore, India 2023-2027
Bachelor of Technology in Electronics and Communication Engineering
CGPA: 8.68/10.0

TECHNICAL SKILLS

- **Languages & Core Tech**: Java (DSA), Python, SQL, Embedded C, MATLAB
- **Core Foundations**: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems (OS), Computer Networks (CN)
- **Backend, Cloud & Data Analytics**: PostgreSQL, MySQL, REST APIs, Pandas, Power BI, Postman, FastAPI, GraphQL, Hasura
- **AI, ML & DevOps Tools**: Machine Learning & Deep Learning (QCNN, MLP, SVM, Random Forest), AI Pipeline Integration, Git, n8n automation, Prompt Engineering

EXPERIENCE

Kofuku Technologies Pvt. Ltd., On-Site May 2025 - July 2025
Software Engineer Intern

- Cut API failures by **30%** during **build and release** cycles by debugging **REST APIs** with **Postman** and **Hasura**, tightening the overall **SDLC**
- Built an Instagram Influencer Tracker using **n8n** for web scraping and AI analytics, automating social media intelligence and saving **10 hours/week**
- Prevented meeting clashes across all internal teams, cutting booking latency by **60%**, by developing an in-house voice-recognition facility scheduling system to reserve available slots
- Reduced QA rework by **20%** and streamlined the **deployment process** by authoring **technical documentation** and conducting **API, manual, and integration testing** to isolate bugs in pre-release apps

ACADEMIC PROJECTS

MS-HQNet: Multi-Stream Hybrid Quantum Framework | *Python, QCNN, SM-SSA, NCA*

- Predicted eye movements from biological EMG signals, achieving **99.17% accuracy** across **600 signals**, by designing a Hybrid **QCNN** combining a **6-qubit** quantum circuit with a classical MLP bypass
- Constructed data pipelines utilizing **SM-SSA** and **NCA** to optimize feature extraction, ensuring data integrity and system reliability through structured testing

ResiliNet: Decentralized 6G Network Simulator | *Python, Network Routing, Simulation* GitHub

- Architected a simulation framework for decentralized 6G networks, modeling node resilience and dynamic data routing to address bandwidth constraints
- Optimized bandwidth allocation and reduced packet loss by conducting targeted node failure simulations using integration testing principles

Customer Attrition Modeling | *Python, SQL, Power BI* GitHub

- Identified a **42%** churn peak by executing **SQL** data cleaning and developing **Power BI** dashboards, uncovering retention drivers for business **stakeholders**
- Programmed a **Random Forest** model adaptable to **financial services**, predicting customer attrition risk with an **80%** classification accuracy

LEADERSHIP

Society of Automotive Engineers (SAE-VIT) | *Marketing, Design & PR Head* May 2024 - May 2026

- Directed multi-channel branding campaigns reaching **1,000+ students**, securing buy-in from university administration and key **stakeholders** to expand chapter outreach
- Managed operations and **40+ volunteers** as POC for SAE AirShow 25, increasing attendee participation by **30 to 45%**
- Streamlined cross-functional logistics and team workflows across **12 major university events** during graVITas 25, ensuring 100% on-time execution

ACADEMIC ACHIEVEMENTS & CERTIFICATIONS

Academic Achievements & Awards:

- Solved **250+ questions** across **LeetCode** and **GeeksforGeeks**, demonstrating proficiency in **Data Structures and Algorithms (DSA)** and **SQL**
- Awarded the **Elite Category Chapter Award** for SAE-VIT for excellence in operations, 2025 to 2026
- Awarded the **Leadership Certificate** for exceptional contribution and management by Vellore Institute of Technology
- Won **Runner-Up** position at Central Hack for leveraging Web3 Crisis Protocols
- Won **Runner-Up** position at Providence Leap Ideathon for AI-Driven Healthcare Benefit Orchestration

Certifications: Pandas Certificate, Kaggle; Statistics OnRamp (2024) & MATLAB OnRamp (2024), The MathWorks, Inc.
